"The Coin Machines Merry-Go-Round"

By Bill Gersh

NOVEMBER 15 - 16 - 17

These three days of the Second Wartime Conference of the coin machines industry promise to be the fullest, gayest, greatest and most memorable in the history of all those who will attend. Reservations to accommodate 900 have already been made with the Hotel Morrison in Chicago. But from all reports so far received it is believed that this number of reservations will prove too small for the crowds that are going to be present. It is therefore essential that you make your reservations today - not only for trains and planes but also for the rooms you intend to occupy in the "World's Tallest Hotel" - the Morrison. Coinmen in the Midwest, East, South and Far West have all enthusiastically indicated their desire to attend.

Open forum discussions will be conducted on future plans of the industry. Also on what coinmen believe should be done now for the betterment of all concerned. How, why, where and when all can get together to do so much more for the war effort, and by so doing push this industry to the top among all other industries that are working to hasten the finish of this war. There is no doubt anymore that the Second Wartime Conference will prove to be the most interesting, real business meeting that has ever been held in all the history of the coin machines industry.

November 15, 16 and 17, 1943, at the "Mural Room" of the Hotel Morrison, Chicago, are going to be three unforgettable days. Leading manufacturers instantly indicated their willingness to attend. They are going to greet their many friends with good, old fashioned, spirited hospitality. It's going to be heart warming. And really reminiscent of the "old days" from every standpoint. It's the sort of get together that coinmen like. And, like all good business men looking to the post war period, they also want to know where they stand and what they must do to assure themselves a better future. The best brains in this business will be gathered together in the Mural Room of the Hotel Morrison on November 15, 16 and 17 and will be there to give of their years of experience and knowledge and good common sense to help any others who are wondering what the right procedure is at this time.

Suggestions continue to come in that we have someone present from OPA. But we wonder whether this is what coinmen really want at this time? Others suggest that we have some officials from the Treasury Department present to talk on how this industry can better help the war effort. But somehow we feel that these are the jobs of the men who compose this industry and that they can work these out just as satisfactorily as could anyone for them.

Certainly we are in an enviable position. Our leading manufacturers are all doing war work and doing marvelously commendable jobs. (You'll see that for yourself when you get to Chicago and visit the factories again.) Our distributors, jobbers and operators are all bond buyers, giving until it hurts. But we feel that our coinmen can do much more with just a little more effort. We believe that coinmen can stimulate the greatest war effort in all the history of this nation among the many retailers they come in contact with daily.

As far as the post war era is concerned, we believe that the coin machines business there, too, is in an enviable position. We believe that economical entertainment and direct point of sale merchandising is what the public will need. We believe that many hundreds of new men and women are going to enter into this industry. We feel that the tremendous backlog demand for machines (as we reported a few weeks ago) is only superficially correct at best and that the real demand that will result when the European and Asiatic export markets are added will be beyond the imaginings of anyone at present concerned with this industry. We feel that we are going to enter into one of the greatest and most prosperous eras in the history of this business. We hope to find our true purpose and our correct course for the future on November 15, 16 and 17.

Extremely important to all who will attend is the creation of a National Coin Machines Board of Trade or a National Coin Machines Chamber of Commerce, call it whatever you like, to be a non-political, unbiased, non-profit, mutual organization, which will act as a common meeting ground for all coinmen and all organizations in this in-

"The Coin Machines Merry-Go-Round"

dustry. The creation of such a national body becomesmore and more important as the days go by and the men comprising this industry note what great value such an organization would have for them.

Surely, then it is to your advantage to bring everyone you know in your territory in the coin machines business along with you to the Second Wartime Conference. Let's make a slogan of the following: "I'LL MEET YOU AT THE 2nd WARTIME CONFERENCE".

REVAMPERS

Reports reaching us indicate that revamping on a gigantic scale is becoming one of the most important divisions of the industry. Many operators, jobbers and distributors have already entered this field. By taking two and even three old machines and making one machine, these revampers actually create an entirely new unit. This is no attempt at evasion of any present regulations. It is but the natural resultant of the demand created by the public as well as the location owners for something new and different. Revamps revive play.

We therefore can foresee such machines as "Brown's Four Bells" appearing soon. Originally we knew this machine as"Mills Four Bells". We are also looking forward to seeing the "McCoy Blue Front". We may even see such machines as "Goldstein's '41 Derby". This may create an entirely new field for all in this industry. It may bring about an entirely new means of identification for all units at present in the field.

Prices, too, for revamps are being guided by an entirely new and different method. There now seem to be list prices, wholesale prices and a distributor's price. For example, a new revamp that will soon appear on the market in the arcade field will have a"list price" of $575.00 and will also advertise a "wholesale price" of $375.00. The distributor's price will most naturally remain confidential.

There is no doubt that by doing some clever paint spraying on a Three Bells and causing those three aggregations of the cabinet to look different the entire cabinet looks new. By ingenious work on the mechanism to perhaps give it a new twist. By recoloring the playing field. By hooking a new sign onto the back with the wording - "Brown's Three Bells" - we do get something that is most definitely different.

The same is happening in the music field. "McGarrity's 616" may sound like an entirely new unit to the outside world. But to coinmen it is still the 616 they have always known. But in the creation of "McGarrity's 616" something new has been added. It may now have new plastic siding, new colored bulbs here and there, a swash of new paint and an additional headboard sign and even a new dome. But, whatever the revamp work is, it is still new. In fact, it is the one and only and inimitable "McGarrity's 616".

The industry seeks ingenious revampers to keep the play going at top speed. With so many in this business recognizing the important part that good revamping plays to allow this industry to carry on for the duration, there is no doubt that many new ideas will come into being. A new type of merchandising may result. Distributors, jobbers and operators will buy and sell each others revamps. Such action can create one of the finest and most stimulating eras ever yet seen in this industry. It gives the operator the opportunity to continuously bring something new to his location which the location owner has never before seen and which he must admit looks entirely new and different. This encourages further, faster and better play action.

We have always believed that the members of this industry can be completely depended upon for outstanding ingenuity to help keep this business on top with the leaders of all industries in the entertainment world. The revamps that are now coming off production lines are proof of this. Music men long ago discovered that where they had three phonos these are now really only two. It takes that third one to repair, recondition and especially to revamp the other two. From such revamp effort will come the ideas for the machines of the post war era. Who knows but what McGarrity may apply and attach some sort of gadget or design which will capture the public's fancy as much as Ballyhoo and Bumper and Longacre and Three Bells and Blue Front and Sky Fighter and Air Raider and Convoy and Super Bomber and Night Bomber and 750E and all the other sensations of yesterday did - to bring about the machine for tomorrow. The machine that may prove to be the greatest moneymaking sensation of all time.

Not only "McGarrity", but "Slowinschiewicz" and "Cohen" and "Tomaso" and "Anderson" and all the others who are becoming revampers. And perhaps from among all these may appear some of the future manufacturers. Some of these boys are going to like the idea of having distributors of their own for their own products. They are going to find themselves doing things they never thought they could do before. Some of these coinmen are going to be the "big fellas" you are going to chase after tomorrow to "get their lines". (We've seen a helluva lot of funnier things happen in this business before.)

HONORABLE MENTION

To Nat Cohn of Modern Vending Company, New York, for obtaining the services of Sigmund Romberg gratis and having him give one of the most memorable concerts in all the history of hallowed Carnegie Hall for the coin machine men's B'nai B'rith Victory Lodge. And even greater honor is in the fact that the coinmen and their many friends who attended this concert purchased over $521,000.00 worth of War Bonds that same evening at the rally held during the intermission.

"The Coin Machines Merry-Go-Round"

FURRIERS GET NEW OPA SET UP

Of interest to the coin machines industry is the method which OPA used to arrange for an entirely new dollar and cents ceiling for the fur trade. Regardless of GMPR and MPR-178, which the furriers had strongly protested, a new dollar and cents ceiling, based on March 1942 prices, was indicated by OPA this past week at a meeting with committees from the fur trade at the Hotel McAlpin in New York City.

This idea of a dollar and cents ceiling was broached by one of the OPA officials at the meeting with the coinmen's committee in Washington. Coinmen at this meeting agreed that such a ceiling would probably eliminate the confusion being caused by GMPR and MPR-429 at the time. It may be possible that OPA is planning to introduce the idea of a dollar and cents ceiling to the coin machines industry, as it did in the fur industry.

This will naturally, involve many, many months of work on the part of any committee or committees that may be appointed from among the members of this industry to survey the field nationally and arrange for ceiling prices on a dollar and cents basis that will prove satisfactory to all concerned. It is understood that these prices will have to be comparable to the March 1942 prices. If such a ceiling is eventually placed into effect it will eliminate GMPR and MPR-429 and probably place all on an equal footing in the industry.

It is the general hope of the trade that whoever the men are who will become members of the committees appointed from among the coin machines industry covering the three equipment divisions of the field, namely; amusement, service and merchandising; that they will be made known to the trade prior to the Second Wartime Conference and that they will be able to meet with the industry at this Conference and present whatever plans they have formulated.

ADVERTISING HELD NECESSARY

The U. S. Department of Commerce issued a 96 page booklet, "Advertising and Its Role in War and Peace" on September 26th which placed the Federal Government as a whole definitely on record as favoring the maintenance of advertising schedules in all media as constructive contribution toward winning the war. The booklet gives the opinion that advertising constitutes "a vital cog in our free enterprise system". And that it is a potent medium for the distribution of information to people at a time when the need for accurate information is the greatest. It is directly addressed to "those who shortsightedly" view advertising as an economic waste in wartime and informs them that the Government "strongly disagrees with this attitude". (It will pay every advertiser to get a copy of this booklet by writing to the Dept. of Commerce, Washington, D. C.

DECCA ELIMINATES SCRAP RECORDS

Decca Records, Inc., informs the trade that they will no longer require music machines operators to turn in scrap records for the purchase of new recordings. This is one precedent that will be heartily applauded by all coinmen. It may bring about elimination of scrap records being turned into other record manufacturers. With new records on the way in and scrap return eliminated the picture is decidedly eased for the music operator thruout the nation.

SUBSTITUTIONS

It is indeed interesting to note the many ingenious substitutions which are being developed thruout the industry. The matter of rare tubes is one which has caused more than one headache for the men. But before the coinmen were ready to give up and junk equipment someone came along with a substitution idea which brought a complete cure, in most cases. These substitutions are extremely important to the trade. If you are now using some sort of substitute successfully for some hard to get part - why not let all the rest of the trade know about it, too.

"WARTIME CONFERENCE SPECIAL"

The November 23rd issue of The Cash Box will be the "Wartime Conference Special". Inspired by the Second Wartime Conference, this issue gives all promise to prove one of the greatest in all coin machines history. It has already met with enthusiastic response of a great many in the industry who have reserved pages in that issue to tell the trade of their post war plans. It will again feature unusually attractive, full color covers and will be side stitched in book form. This issue will review the first advance steps made by the trade thruout the wartime months and will also present the new plans being placed into effect by a great many in the trade for the post war era which is becoming ever more important. The "Wartime Conference Special" will close in the offices of The Cash Box on November 10th, 1943. Every advertiser is urged to rush his page or half page (printed) reservation immediately to obtain best possible position and insure his ad appearing as he wants it.

PAST performance is the foundation on which operators and distributors base their faith in the future . . . their confidence that the organization which created *Rocket* (which is pictured above for old time's sake), *Airway, Action, Jumbo, Bumper, Bally Reserve* and other historic Bally games can be counted on to bring forth successful games and venders in the days of victory and peace to come.

PRESENT production at the Bally* plant is one hundred per cent for Uncle Sam. Night and day, seven days a week, the Bally* organization is producing vital equipment for the Army and Navy . . . and proving that the technical skill developed in peace-time design and production of coin-operated games and venders is a valuable asset to America in time of war.

FUTURE plans of the Bally organization call for quick production of new games and venders immediately after the defeat of the Axis . . . and for exploitation of marvelous new electrical principles developed by war-time technology. In the post-war era, as in the past, "you can bank on Bally" for the newest in money-making games and venders of all types.

*War products manufactured by the Bally organization are on contracts in the name of Lion Mfg. Corporation, of which Bally Mfg. Company is a subsidiary.

NOTICE

MARCH, 1942, MARKET PRICES APPEARED IN THE SEPTEMBER 7, 1943 ISSUE. PRICES LISTED ARE CURRENT WEEK'S MARKET PRICES.

* * *

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

6—Means no prices quoted for this machine for past two weeks.
7—Means no prices quoted for this machine for past three weeks.
8—Means no prices quoted for this machine for past four weeks or longer.
